COMPASSION THAT COMES FROM
OTHERS WHO UNDERSTAND...**

...and face the same challenges and issues in the autism world, as well as the joys and successes of an autistic child.

Our group strives to uplift families and friends of those who live with Autism Spectrum Disorders through our monthly meetings. The ANSWER Group believes that amongst the exchange of experiences and information in a light-hearted atmosphere, we can improve the lives of individuals with autism while providing families with the support that is needed.

So please do join us for some refreshments and great conversation. Respite care is provided by the SCCA. We'll look forward to seeing you!

Please call the SCCA with any questions at the number on the right.
